Sweeney Refrigeration & HVAC Service  
878 Mill Pond Road  
Colchester VT 05446

It is my pleasure to inform you that your employee, **Clark G Sweeney**, a member of the Refrigeration Service Engineers Society (RSES), has earned the prestigious Certificate Member (CM) credential.

The Certificate Member (CM) credential has been in existence since 1935. The "CM" credential is earned by an RSES member after passing a very difficult examination which tests 18 categories of knowledge required in the installation and servicing of refrigeration and air conditioning equipment. The current pass rate on this examination is approximately 18% and only 15% of the current RSES membership holds this prestigious title.

To offer you a little background: RSES was founded in 1933 as a non-profit educational society with a mission to advance the HVACR industry by furthering the education and skills of the practicing service professional. Today, RSES is the world's leading education, training and certification association for heating, ventilation, air conditioning and refrigeration professionals. RSES certification programs include the CM/CMS exam series (since 1935), and one of the largest EPA Section 608 programs in the industry. RSES is currently made up of 18,700 members in 428 chapters in the U.S. and Canada, as well as affiliate organizations worldwide.

In addition to the many examinations available through RSES, the Society conducts training courses through its local Chapters in the categories of Refrigeration and Air Conditioning, Heating, Electricity, Controls, and Heat Pumps.

RSES has a multitude of training and reference materials available through manuals, interactive CD ROM programs, and seminars to keep the service technician trained and abreast of current technologies, industry changes, etc. You should be pleased to know that **Clark** values the education he receives through RSES and takes pride in the industry and his work. You, as his employer, can take pride in knowing that your employee is trained to provide quality, professional service!

Should you have any questions or concerns regarding the information contained in this letter, please feel free to contact me.

Sincerely,

Roger M. Hensley, CMS  
Chairman, E and E Board
